

## eTEC Ultra-Flat Roll Up 230mic

### Product Description

eTEC Ultra-flat is a durable textured PET/PVC film that delivers rich print quality for vibrant images, perfect for exhibitions graphics, banners and printable rollup stands.

### Key Features

- High-quality, scuff-resistant finish ideal for busy exhibition environments.
- No need for over-lamination – Save money & Time
- lay-flat anti curl properties
- Grey back provides excellent opacity
- Durable textured PVC/PET hybrid with very high tensile strength.

### Printability

Solvent, Eco Solvent, Latex & UV

### Additional Information

When using Solvent and Eco-solvent inks, lay product flat after printing for at least 24 hours to 'solvent outgas'.

How to store: To prolong the product's usable life, avoid excessive exposure to UV radiation, store unused wall Print On in a dry place and do not expose to extreme temperatures (temp. 23° +/- 2°C, R.H. 55%).

Shelf life: 3 years (in advised storage conditions).

Minimum expected 'in use' life: 2 years (indoors, in advised storage conditions).

**All values and information issues are approximate and should only be used as a guideline. Products should be tested by the end user for absolute suitability with the substrates and environments upon which it is intended to be used. Premier Paper cannot be held responsible for any damage to printing and finishing equipment or surfaces to which products are applied.**
